

Term 3 Newsletter – P4 Room 12

Welcome Back!

We hope you enjoyed the Christmas festivities!
We have another busy term ahead which will include parent's night, pupil progress reports and our class assembly.

Numeracy

In Maths we will be developing our knowledge and understanding of 2D and 3D shape properties, calculating area and perimeter, learning our 4 times table and learning to convert between digital and analogue displays.

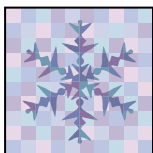

Literacy

In Literacy we will be learning to use the phoneme 'oe' and a set list of common and tricky words. When reading we will be learning to offer our own opinions about structure, characters and setting.

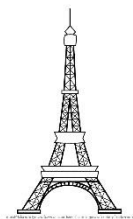

Topic

This term our topic will be 'Winter'. We will be observing and learning from the environment around us and comparing it with other parts of the world.

French

We will be recapping on our numbers and months of the year, before learning to recognise and respond to the question "When is your birthday?"

Health and Wellbeing

This term we will continue to have PE with Mrs Paul-Bird in which the focus will be dance and football. In addition we will be starting the daily mile every day, weather dependent.

Music

Mrs Constable will continue to teach weekly music lessons in which she will focus on a Scottish theme ready for Burns Night. This term we are also lucky to have Mr Thomson who will be teaching through a variety of musical games.

Reminders

Wednesday – homework is handed in

Friday – PE with Mrs Paul-Bird (bring your gym kit) + homework is handed out (If you are off, your homework will be put in your tray for you to take home when you return to school)

Science

We are very lucky as we will continue to have a science ambassador, an S6 Academy pupil, helping to deliver Science lessons every second Wednesday from February onwards.
